

Potassium Citrate Plus Cranberry Granules

This treatment applies to the following species:

- Cats
- Dogs

Company: VetOne

(micro-encapsulated potassium citrate and cranberry extract)

For Veterinary Use in Dogs and Cats

VetOne® Potassium Citrate Plus Cranberry Granules is a dietary supplement for use in dogs and cats that contains ingredients known to aid in the prevention of urinary stone formation. Potassium citrate helps decrease the possibility of calcium oxalate stone formation and cranberry extract has been shown to enhance urinary tract health.

Recommended Use: The following dosage schedule is recommended for the daily administration of VetOne® Potassium Citrate Plus Cranberry Granules. Consult with your veterinarian to determine the proper dosage amount and schedule for each individual animal prescribed this product.

Cats: Administer 1 scoop (5 grams) per day.

Dogs: Administer 1 scoop (5 grams) per day for every 10 lb (4.5 kg) of body weight.

Do not exceed 30 grams (6 scoops) per day.

Administration: A 5-gram scoop is enclosed in the container for accurate dosing. Measure out the prescribed daily dose and administer over the pet's food. Product may be mixed with food to facilitate complete consumption. VetOne® Potassium Citrate Plus Cranberry Granules is formulated with a proprietary, highly palatable chicken flavor base to ensure all pets readily consume the supplement.

Active Ingredients (per 5-gram scoop):

Potassium Citrate (micro-encapsulated)	300 mg
Cranberry Extract	50 mg
Essential Fatty Acids	423 mg

Inactive Ingredients

Calcium Phosphate, Choline Chloride, Hydrolyzed Vegetable Protein, Marine Lipid Concentrates, Natural Chicken Flavor, Silicone Dioxide, Stearic Acid, Sucrose, Vegetable Oil and Whey.

KEEP OUT OF REACH OF CHILDREN
